The following lessons were created by Kirsten Whittaker, a teacher participating in the National Endowment for the Humanities Summer Institute for Teachers entitled Touch the Past: Archaeology of the Upper Mississippi River Region.

Any views, findings, conclusions or recommendations expressed in this publication do not necessarily represent those of the National Endowment for the Humanities.

Exploring the Past: Ceramics Throughout History

Grade Level: 10-12

Subjects: Ceramics II

Objectives:
The student will utilize research skills to develop a PowerPoint or Prezi presentation that identifies the specific attributes and history of their chosen influential culture’s use of ceramics.

The student will employ appropriate artistic vocabulary developed in class, in order to express their knowledge of course content, and review the information learned during Ceramics I.

The student will utilize computer and internet technologies to cultivate an informative body of work about an ancient culture that utilized ceramics for utilitarian and non-utilitarian purposes.

The student will develop a quality brainstorm sketch in planning and preparation for their final piece: existing as evidence of brainstorming and planning.

The student will create a final project to accompany their presentation, illustrating the influence of their chosen culture: this piece may be either utilitarian or non-utilitarian.

The student will utilize problem solving and critical thinking throughout the creative process, in order to exemplify skills in craftsmanship, and mastery of tools/materials.

The student will work independently and collaboratively to perform a self critique and partner critique.
Standards:

Florida Sunshine State Standards:
VA.912.C.1.7: Analyze challenges and identify solutions for three-dimensional structural problems.

VA.912.C.2.2: Assess the works of others, using established or derived criteria, to support conclusions and judgments about artistic progress.

VA.912.S.1.1: Use innovative means and perceptual understanding to communicate through varied content, media, and art techniques.

VA.912.S.2.4: Use information resources to develop concepts representing diversity and effectiveness for using selected media and techniques in a sketchbook or journal.

VA.912.S.3.1: Manipulate materials, techniques, and processes through practice and perseverance to create a desired result in two- and/or three-dimensional artworks.

VA.912.S.3.10: Develop skill in sketching and mark-making to plan, execute, and construct two-dimensional images or three-dimensional models.

VA.912.S.3.11: Store and maintain equipment, materials, and artworks properly in the art studio to prevent damage and/or cross-contamination.

VA.912.S.3.12: Develop competence and dexterity, through practice, in the use of processes, tools, and techniques for various media.

VA.912.H.1.9: Describe the significance of major artists, architects, or masterworks to understand their historical influences.

VA.912.F.1.2: Manipulate or synthesize established techniques as a foundation for individual style initiatives in two-, three-, and/or four-dimensional applications.

VA.912.H.3.3: Use materials, ideas, and/or equipment related to other content areas to generate ideas and processes for the creation of works of art.

VA.912.F.3.4: Follow directions and use effective time-management skills to complete the art-making process and show development of 21st-century skills.

VA.912.F.3.6: Identify ethical ways to use appropriation in personal works of art.

LACC.910.SL.2.4: Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LACC.910.WHST.2.4: Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

LACC.910.WHST.3.9: Draw evidence from informational texts to support analysis, reflection, and research.

**Duration:**
4 weeks: 5 Classes per week: 53 minutes per class period. (10 minutes: Bell Assignment, 35 minutes: Project Development, 8 minutes: Cleanup)
**Week 4:** Only two classes devoted to finishing projects. Projects and Presentations due the Friday of week 4.

**Materials/Supplies:**
- Computer lab: Research/Prezi or PowerPoint development
- Classroom resource materials: Specialized books/ Textbooks/ Magazines
- Sketchbook: Note taking/Brainstorming sketches
- Plastic Bag: Project Preservation
- Sponges
- 1.5 lbs gray stoneware or terra cotta earthenware
- Clay Tools: Needle tools/ ribbon tools/ ribs
- Spray bottles/ water
- Pencil
- Kiln
- Finishing Methods: Acrylic Paint/ Watercolor/ Shoe Polish/ Glazes
- Paintbrushes
- Cotton Rags
- Paint Palettes

**Vocabulary:**
- Stoneware  Kiln  Bisque  Utilitarian  Non-Utilitarian  Earthenware
- Functional  Decorative  Clay Body (Composition)  Jomon Culture  Greek Culture
- Babylonian Culture  Egyptian Culture  Coiling  Burnishing  Pit Fire
- Craftsmanship  Terra Cotta  Vessel  Porcelain  Sculpture

**Background:**
This lesson has been designed as a review for students enrolled in Ceramics II, in order to reinforce the information gained in Ceramics I. The lesson takes the knowledge developed in Ceramics I and allows each student to choose a specific culture to review. They may utilize their notes from the previous year, as well as supplemental materials. The content has already been taught in the previous course, however, students are being given the opportunity to delve further and more independently into the content.
Setting the Stage:
In order to prepare students for the upcoming project, the instructor will provide handouts that review the information that needs to be covered in the project. The students will be shown teacher exemplars of a Prezi Presentation highlighting Jomon Pottery, as well as a final ceramic project.

Procedure:
Week 1: Students work in computer lab to develop presentations. Students will utilize handout to complete information required. They may also utilize classroom textbooks and class library.

Weeks 2&3: Students work independently in classroom to develop projects. Firing will occur at the end of the 3rd week. Work must be bone dry. Projects may be either utilitarian or non-utilitarian. Stoneware or Terra Cotta may be utilized.

Week 4: 2 classes will be allotted for glazing/painting/shoe polish. Projects due the Friday of the 4th week (date TBA): Both the presentation and the artwork are due on this date.

Closure:
Students will perform 3 critques throughout the working process. The first will be a self-critique, in order to assess progress and identify areas of focus. The second will be an In Progress Sandwich Critique, performed by a partner. The final Critique will be a formal critique, performed by a different partner in class. This final critique will go through the steps of:

1.) Description
2.) Analysis
3.) Interpretation
4.) Judgment

The projects will then be submitted for evaluation by the teacher, utilizing 2 separate rubrics: one for each portion (Digital Presentation and Ceramic Project).

Evaluation:
Students will be provided with 2 rubrics to guide them throughout the working process. One rubric will highlight the grading criteria for the PowerPoint or Prezi Presentation. The other will be specific to the ceramic piece developed.

Evaluations will also be executed throughout the working process through daily Bell Assignment checks, daily participation assessment, and 3 critques.

Overall Grading: Projects= 50% of Overall Grade
Daily Participation/Critiques= 20% of Overall Grade
Quizzes= 30% of Overall Grade

**Attachments:** (See following pages for handout and rubrics.)
**Student Project Description:** The student will develop skills in research methods through the exploration of a historical culture that utilized pottery/ceramics for functional and decorative means. The student will assemble a brief Prezi or PowerPoint presentation, documenting the information below about their chosen culture, incorporating a full Works Cited in their research. The student will then develop one quality sketch of a vessel or sculpture, inspired by their chosen culture, and execute the project to completion. The student will concentrate on quality craftsmanship and creativity.

**Choose a culture** from the list below, or research one independently (must be approved by teacher):

- Jomon Culture: Japan
- Pueblo Indian Culture
- Greek Culture
- Babylonian Culture
- Egyptian Culture
- Roman Culture
- Other: ____________________________

**Vocabulary:**

<table>
<thead>
<tr>
<th>Stoneware</th>
<th>Kiln</th>
<th>Bisque</th>
<th>Utilitarian</th>
<th>Non-Utilitarian</th>
<th>Earthenware</th>
</tr>
</thead>
<tbody>
<tr>
<td>Functional</td>
<td>Decorative</td>
<td>Clay Body (Composition)</td>
<td>Jomon Culture</td>
<td>Greek Culture</td>
<td></td>
</tr>
<tr>
<td>Babylonian Culture</td>
<td>Egyptian Culture</td>
<td>Coiling</td>
<td>Burnishing</td>
<td>Pit Fire</td>
<td></td>
</tr>
<tr>
<td>Craftsmanship</td>
<td>Terra Cotta</td>
<td>Vessel</td>
<td>Porcelain</td>
<td>Sculpture</td>
<td></td>
</tr>
</tbody>
</table>

Throughout this research, the following information must be recorded, and documented through a short PowerPoint or Prezi presentation.
1.) Culture being highlighted, as well as geographic location and time period/span:

____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

2.) Geographic influences on culture: ex.) Was the culture near water, mountains, etc.?

____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

3.) Function of pottery/ceramics in chosen culture. Functional, Decorative, or both? Be precise about specific uses of pottery.

____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

4.) Type of clay being used: What was it composed of? Clay components alter the appearance, texture, and firing methods of the clay.

____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

5.) Firing method(s) utilized by the culture.

____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

6.) Designs of vessel/sculpture shapes, and exterior embellishments.

____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
After this information has been documented in a PowerPoint or Prezi Presentation (with a full works cited), the student will produce one quality brainstorm sketch to be submitted with their project. The student will develop an artwork based on the style of their chosen culture.

This piece may be functional or decorative. Finishing methods may be chosen from the list below:

- Glaze
- Acrylic Paint
- Shoe Polish
- Watercolor Paint
